

# CHICAGO THIRONGS CHEER LA FOLLETTE

## SHENANDOAH MAY FLY TO HAWAII AS NEXT HEAVY TEST

ADMIRAL MOFFETT HAS PLANS FOR OCEAN VOYAGE.

COAST REACHED

Huge Dirigible in Battle With Storm and Wind in Mountains.

San Diego, Cal.—An air trip to Hawaii may be the next test for the great navy dirigible Shenandoah when the big dirigible leaves the North Island naval station here last night, according to an official statement.

The dirigible was scheduled to fly on its northward cruise along the Pacific coast for Camp Lewis, Wash. The Shenandoah made the last run of its long journey at a rate of more than a mile a minute, a battle with hail and snow and head winds in the San Jacinto mountains during the evening.

More than 200 civilians were on the field to greet the Shenandoah, despite the lateness of the hour and the darkness of the night. The silver envelope-shaped dirigible left Camp Lewis at 10:15 and the dirigible came into view, flying at an altitude of 2,000 feet.

Admiral Moffett was the first to jump out of the Shenandoah's cabin. He was followed by Commander Zachary Landrum, who brought the dirigible to the mooring mast at Ft. Ord.

The dirigible was scheduled to fly on its northward cruise along the Pacific coast for Camp Lewis, Wash. The Shenandoah made the last run of its long journey at a rate of more than a mile a minute, a battle with hail and snow and head winds in the San Jacinto mountains during the evening.

## CHANG FORCED TO RETIRE

## JAPS HONOR ARGENTINE

Tokyo—Major Pedro Zanno, introduced Argentine flying around the world, will be decorated with the sixth order of the Rising Sun by the Japanese government, the minister of communications announced today after arrival of Zanno at Kasumigaura, the Tokyo air base, from Kishimoto.

## HOUSE ROBBED WHILE VISITING PARENTS

While Mrs. Leslie Bookout was visiting her parents, Mr. and Mrs. J. J. Bookout, 618 Milwaukee avenue, during the past week, her home in Chicago was robbed of all its silverware, according to word just received.

## GENERAL BORN OVER MRS. KIMBERLEY'S FATHER'S STORE

An item printed in the historical section of the editorial page of the Gazette, Thursday, to the effect that General Leonard Wood was born in Winchester, N. H., and that he was the birthplace of Mrs. Kimberley's father, was corrected today.

## Darrow Given Flaying by Federal Judge for Plea to Save Bootleggers

Chicago—Efforts of Clarence S. Darrow, the attorney for Luch and Leopold and associate counsel to bring about further delay of the day when Harry Ferguson and Frankie Lake, millionaire bootleggers, begin their year's term in jail, yesterday provoked a severe reprimand from the United States circuit court of appeals.

## Mrs. Julia Lovejoy Adds \$10,000 for Y. M. C. A. Building

Another gift of \$10,000 to the Y. M. C. A. new building fund of \$275,000 was announced today. The donor is Mrs. Julia S. Lovejoy, widow of Allen P. Lovejoy, and widely known throughout this section of Wisconsin.

Mrs. Lovejoy, in presenting her subscription to J. A. Steiner, general secretary of the local Y. M. C. A., made this statement: "I am interested in the welfare of the young people of this community and consider the Y. M. C. A. a most valuable institution for good work among them. The building that the Y. M. C. A. now occupies is entirely inadequate, antiquated and inconvenient for efficient and economical administration. What our city has done, our citizens must help Janesville to do, by giving generously to the new building."

## ZEPPELIN TO START SUNDAY ACROSS OCEAN

Friedrichshafen, Germany.—The flight of the Zeppelin ZH-5 from Friedrichshafen to Lakehurst, N. J., the start of which had been announced for this morning, was suddenly postponed at the last minute until 8 a. m. Sunday.

## FORT BREWERY CASE MONDAY

Charged with conspiracy to violate the Volstead law, a prohibition offense, Thomas O'Donnell, 28, Chicago, and 19 other men will appear before Judge Claude Z. Lusk at Fort Madison Monday for a preliminary hearing.

## SENATOR IS GIVEN LOUD WELCOME ON ARRIVAL SATURDAY

FOLLOWERS JAM STREET AND FOLLOW HIM TO HEADQUARTERS.

WOMEN ACTIVE

Liberty Bell Float Pulled by Feminine Hands in Wake of Candidate.

Chicago—Senator Robert M. La Follette, entering the city housing the headquarters which is directing his campaign as independent candidate for the presidency today, received a colorful and noisy welcome.

Slipping into the railroad station an hour ahead of time, Senator La Follette took advantage of the quiet before the throngs of campaign associates, talked briefly with the committee in charge of his reception, and made up what his man-of-war described as a "special delivery" for his journey through the city's loop to the hotel where John Nelson, his directing chairman, waited to lay business before him.

On the hour intervening between his arrival and the time he left his car, all sorts and kinds of passages from the station were lined up, deep, with followers patiently standing by to acclaim him.

When the senator left his private car the first to cheer him started an ovation which was virtually continuous from the time he entered the station to the time he reached his hotel. A parade of women, until he had been greeted from all sides, surrounded by a mass of humphs at the entrance of the hotel, waiting to greet him in the yard. It was almost necessary for him to be escorted to the hotel by a mounted police escort to pave the way through the crowd in order that Senator La Follette's car might proceed. Traffic lights were thrown "through." The broad sidewalks on each side of the boulevard were jammed with a procession moved forward the crowd tried to move with him.

More than a mile and a half was traveled, which required 40 minutes to complete.

All along the route he was cheered, traffic which had been stopped to let him pass, and the cheering continued all the way to the hotel. Senator La Follette's car, a parade of women, until he had been greeted from all sides, surrounded by a mass of humphs at the entrance of the hotel, waiting to greet him in the yard. It was almost necessary for him to be escorted to the hotel by a mounted police escort to pave the way through the crowd in order that Senator La Follette's car might proceed. Traffic lights were thrown "through." The broad sidewalks on each side of the boulevard were jammed with a procession moved forward the crowd tried to move with him.

## DAYTONA, FLA., UNDER FLOOD

Daytona, Fla.—With the flood waters in Daytona and vicinity still at the highest level reached and the rain continuing, lower tides afforded better drainage, gave a ray of hope that the worst is over and that the flood waters will recede during the day. Little damage has been reported.

## WIFE OF JUSTICE MCKENNA IS DEAD

Washington, Mrs. Amanda E. McKenna, wife of the senior associate justice of the supreme court, died here early today after a long illness, complicated by the effects of advanced age. Funeral services will be held Monday and interment will be in Washington.

## WHITEWATER SHIPS CARLOADS OF BEETS

Whitewater—Eight to ten carloads of beets are being shipped daily by the Rock County Sugar company, Janesville, from the conveyor at the east side of town and by the Menominee Sugar Beet company from their conveyor near the depot.

## THE WEATHER

Cloudy with weather showing in northern portion tonight or Sunday; warmer tonight.

## AWAIT DECISION IN LYONS CASE

Jefferson County Interested in  
Blue Sky Action Before  
Grimm.

Jefferson County is personally interested in the decision which will be made in a few days by Judge George Grimm, on the writ obtained by Robert W. Lyons, former president of the Jefferson Rubber company, and defendant in a criminal action charging him with violation of the blue sky law.

Written reports were submitted before Judge Grimm Friday afternoon by Attorney Ray C. Twining, Milwaukee, representing Lyons and District Attorney Otto Kuehnelt, for the state. Judge Grimm announced he will give his decision within a few days.

The present status of the case results from a decision by Justice C. A. Buss, holding that Twining could not appear for Lyons, having been district attorney of Jefferson county when another case was pending against Lyons. The Justice therefore held that Lyons' bail be forfeited and he be rearrested.

A coronator writ commanding Twining to turn over all records to the circuit court was issued by Judge Grimm and the state given 10 days to show cause why this should not be carried out.

Several hundred farmers and women lost their savings through investing in the Jefferson Rubber company, that failed after several months operation.

## GOOD TIMES CLUB WORK PROMOTED IN TALK AT STOUGHTON

Seventeen students of the normal training department, Stoughton high school, heard about the Good Times club and its aims and purposes Friday afternoon when Mrs. Florence Sloan Hyde, community editor, gave an address on the subject. It was explained that membership in the Good Times club is open to the schools of all counties adjoining block and that such service can be extended by mail is available to schools and community organizations regardless of distance from Jamesville. Motion picture entertainments and personal visits in connection with community projects is restricted to points within reasonable driving distance of Jamesville.

Normal training students are very enthusiastic about the Good Times club and to send to the school each month a supply of the Good Times club recreation material, so that each member can receive a copy of the paper in "home chest" collection of places to be used when she enters the teaching profession one year hence.

Mrs. Maude Mitchell is principal of the normal training department which provides a course similar to that given in county normal schools of Wisconsin.

## PALMYRA TEMPLE TO BE DEDICATED

Palmyra—Formal dedication of the new Masonic temple will be conducted here next Thursday, with special ceremonies expected to attract a large number from this section.

Addresses will be made by the Rev. W. W. Perry of Milwaukee, and the Rev. A. L. Tucker of South Milwaukee. Officers will be presented by the Royal Arch lodge of Whiteswater, John L. Martin of Waukesha will sing.

The temple is for both Masonic and Eastern Star lodges of Palmyra.

## LAWRENCE COLLEGE HAS 1,200 STUDENTS

Appleton, Wis.—Lawrence college boasts of a larger student enrollment this year than last, and has six additional faculty members, according to Olin M. Mead, registrar. More than 800 students enrolled in the college of liberal arts and about 400 in the conservatory of music.

Luby's Closing Out Sale now going on. Selling nothing but shoes at closing out prices. —Advertisement.

## VILLA'S BROTHER SURRENDERS

Mexico City—The war department confirmed reports of the unconditional surrender of Hipolito Villa, brother of the famous bandit.

## BRIEFS BY WIRE

Geneva, Ill.—The state failed in an effort to force Warren J. Lincoln, accused wife slayer, to take the stand in his own defense.

Springfield, Ill.—The Illinois supreme court sustained the law providing that vendors of poisonous liquor be prosecuted for manslaughter when the use of the liquor results fatally.

Nowata, Okla.—Joseph B. Yeats, minister, pleaded guilty to a charge of abducting Georgia Fields, 11.

Washington, D. C.—The new U. S. naval airplane broke a 20-minute flight duration, with 20 hours and 35 minutes.

Houston, Ill.—Mrs. Elsie Sweet, who signed a confession that she poisoned her husband in a plot with L. M. Night, former I. O. O. F. minister, is expected to plead not guilty.

## White's Campaign Turning Kansas Upside Down

David Lawrence

Copyright 1924, by the Jamesville Gazette—Special Correspondence

Wichita, Kan.—William Allen White, independent candidate for governor, is standing Kansas on its ears. Right and left through the state the Emory editor is campaigning, drawing enormous crowds, entering towns with his quaint philosophy and keen humor, and giving the veteran politicians of both the republican and democratic parties a new idea of the generation about the state that is to come.

Will White has one plank that is paramount. He is against the Ku Klux Klan. And many people who don't think the Klan is much of an issue but who like Bill White will vote for him anyway. It's a typical Kansas year. Nobody knows how the election for governor will go. White may carry the state by 50,000 votes or he may be defeated by 50,000.

The chances are against Will White's success if the mathematics of the voting can be accepted. The democrats are strong in their support of Gov. Jonathan Davis, who is running for re-election, while the regular republicans are sticking to Ben Paulsen. Each side tells you with confidence that it will win. In drawing more votes from the camp of the enemy, but there are all sorts of factors which disturb any line of reasoning. First of all, there has always been a large percentage of Catholics vote in the democratic party. The platform of the democratic ticket in the state denounces the Klan, but Gov. Jonathan Davis has not said much about it.

Ben Paulsen and the minority for governor was a minority selection in the primaries. He comes from the standard section of the republican party. The progressiveness has been eliminated in a Kansas primary. So Will White, who is a progressive of progressives, is expected to win the election. There are many observers who feel that if Kansas turns up a progressive year and elects William Allen White, Mr. Coolidge may be found on the same ballot to have lost the state.

With a mixed up situation in which very few voters are really stating their preference, and with a La Follette vote by no means inconceivable, Kansas may be put down as the cinema of the year.

Governor Race Leads

Unquestionably the race for governor is overshadowing the contest for the election. All sorts of combinations are to be found on canvassing the voters. There are some who say they will vote for President Coolidge. William Allen White is the democratic representative in congress from this district. William A. Ayers. Others are voting for La Follette for president, Jonathan Davis for governor, and former Senator Chester Long, the republican conservative who is contending for Mr. Ayers' seat. Under those circumstances, experienced politicians who know Kansas are throwing up their hands and shrugging their shoulders. Anything may happen—that's Kansas.

Newspapers for White

There's a somewhat different viewpoint here, to be sure, than is to be found in Topeka. Luby is more vocal here and there is more La Follette talk than is heard elsewhere. William Allen White has the endorsement of most of the newspapers in Kansas and those that are not out-and-out supporters are very friendly in their attitude. So far as the newspapers are concerned, they are pinning Will White's speeches fully and they no longer regard his candidacy as a joke. He is a symbol of protest now and perhaps if he had more time so as to campaign in every county of the state he would win hands down, as it is the governorship battle that is stirring the state.

Kansas, while not affirmatively enthusiastic for President Coolidge, nevertheless shows little hostility to him. Here in Wichita the prevailing opinion among the well-informed men who can subordinate their partisanship in a fair analysis of the situation, is that Mr. Coolidge will carry the state.

NEW LIGHTS PLANNED

Oshkosh—This city has accepted the \$5,220 bid of the Kelley Construction company of Eau Claire for a system of ornamental lamps on Parkway, from Main street to Mcnominie park.

## COMPENSATION OF \$770 FOR SAXBY

Former Policeman to Collect  
from City for Partial Disability.

William S. Saxby, former policeman, will collect \$770.61 compensation from the city of Jamesville during the next few days as a result of an industrial commission award announced here Saturday as a follow-up of the hearing in the Saxby case conducted in this city two weeks ago. The commission decided that the applicant is suffering 20 per cent disability in his right leg, due to being struck in the hip June 2, 1922, by a bullet fired by James Lacey, negro, now serving a penitentiary sentence.

In its decision, the commission says Mr. Saxby was on duty as a policeman at the time of the mishap and that he was drawing a salary of \$1,500 a year. From June 2 to Aug. 21, the ruling says, the applicant suffered temporary total disability for which he was fully compensated by the city. Since that time, however, it is held that the injured man has been partially disabled and is thus entitled to 200 weeks compensation at \$2.77 per week, or \$770.61.

The commission says it is for the best interests of both parties that the amount be paid in lump sum. J. G. McWilliams represented Mr. Saxby in his case before the commission and examined witnesses in the time of the hearing.

The city, appearing by city Attorney Roger G. Cunningham, took the position of desiring to get all the facts in the matter in order to do the right thing by the former patrolman.

## VISITING PASTORS AT ST. JOHN'S CHURCH

Two visiting pastors, the Rev. W. E. Krebs, Rock Falls, Ill., and his father, the Rev. A. Krebs, Rock Falls, Wis., will preach the Mission day sermons at St. John's Lutheran church, North bluff street, Sunday morning, Oct. 13 and 14, respectively.

The Rock Falls pastor will also address the Sunday school and at 2:30 p. m. lectures will be given in English and German on the subject, "The Debt for Home and Foreign Mission work." St. Paul's Lutheran church will observe its annual Mission festival with two morning services conducted by the Rev. E. J. Steinhilber.

## REGULATING HEAT IN NEW THEATER

The Johnson Service company of Milwaukee have installed in the Jeffers theater automatic temperature regulation and humidity control whereby uniform temperatures will be maintained in the auditorium of the theater by means of a pilot thermostat which will regulate the controlling valves and a by-pass damper on the vents heaters for the circulating system. There is also a humidifier furnished controlling a steam humidifier for furnishing the proper amount of moisture for the ventilated air. The full air damper for the auditorium will be operated by an air switch located conveniently so that the dampers can be thrown wide open when the theater is in use.

It is estimated that during this year the American people will spend \$200,000,000 for radio equipment.

Mrs. M. L. Paulson accompanied

## Two Motorists Hurt in Crash

(SPECIAL TO THE GAZETTE)

Edgerton—Sam Terzis, Edgerton, and James Dervies, Jamesville, are in the Edgerton hospital, and the former's Hudson coach is wrecked as the result of an accident Friday afternoon when the car crashed into a culvert on a curve near Cliff lodge on the Jamesville-Edgerton road.

Both men were severely cut about the face, head, neck and hands, being hurled through the windshield. They were coming towards Edgerton when the accident happened.

The blinding sun was said to be partly responsible, striking Terzis in the eyes as he drove the car around the curve. He was forced to turn sharply to avoid another car and crashed into the culvert.

ICE TRUCK KILLS BOY

Racine—William Stawick, 7, died at a hospital here last night as the result of injuries sustained when he was run over by an ice truck several hours earlier.

## Two Motorists Hurt in Crash

(SPECIAL TO THE GAZETTE)

Edgerton—Sam Terzis, Edgerton, and James Dervies, Jamesville, are in the Edgerton hospital, and the former's Hudson coach is wrecked as the result of an accident Friday afternoon when the car crashed into a culvert on a curve near Cliff lodge on the Jamesville-Edgerton road.

Both men were severely cut about the face, head, neck and hands, being hurled through the windshield. They were coming towards Edgerton when the accident happened.

The blinding sun was said to be partly responsible, striking Terzis in the eyes as he drove the car around the curve. He was forced to turn sharply to avoid another car and crashed into the culvert.

ICE TRUCK KILLS BOY

Racine—William Stawick, 7, died at a hospital here last night as the result of injuries sustained when he was run over by an ice truck several hours earlier.

 London Bridge club, Miss Vera Disher.  
 Dinner for Miss Hanson, Mrs. Robert Cunningham.  
 Lunch and supper, Congregational church.  
 Dinner party, Mrs. Edward Homming and Mrs. J. J. Scheller.

**SOCIAL FORECAST**  
 With clubs reopening and announcing that the arts will be cultivated extensively this winter, an auspicious season is being heralded for the club women of Janesville. The Current Topics club, which while it is exclusive in number, opens the season Monday at the home of Mrs. J. A. Craig, 603 Court street. The Catholic Women's club has its second regular meeting Monday night at St. Patrick's hall when a lecture will be given by the Rev. A. J. Tullmace, Marquette university, Milwaukee, on "Education and the Will." Another distinguished group of women resume meetings Tuesday when the Janesville chapter of the Daughters of the American Revolution convenes at the Colonial club for a 1 o'clock luncheon followed by a business session and program. The Macdonell club will formally open the season with a 1 o'clock luncheon Thursday at the Colonial club. Miss Helen Hedges, Chicago, winner of the prize offered by artists by the National Federation of Women's clubs, will be the soloist for the program which is to be held at the luncheon. Frederick Schaeffer will be the accompanist. Miss Hedges has just returned from Europe where she spent the summer coaching with some of the noted voice teachers of the continent. Lillian Sindahl, Selma Gorg and Mrs. Violet Senile, artists who have appeared in this city in the past were winners of the state federation contests.

Although but two local clubs are affiliated with the Wisconsin Federation of Women's clubs, the Art League and the Philomathean will send delegates to the state convention which is to be held at Oconomowoc, Tuesday, Wednesday and Thursday. The Art League named delegates Friday afternoon and the Philomathean society which is meeting Saturday afternoon at the home of Mrs. Charles Sanborn, 520 South Third street, was also to act on this matter. Harvest suppers and Halloween parties in keeping with the season of autumn are beginning to occupy space in the social calendar. A Halloween entertainment is to be given Tuesday night at the Country club with Mrs. Albert Scheller in charge. The Women's Guild of Trinity church is arranging for a home harvest festival and supper Wednesday night at the parish hall. Pupils of the domestic science department of the vocational school will entertain with a luncheon Wednesday at 11:45 complimentary to Supt. and Mrs. G. J. Elhart. Members of the faculty and their wives will be guests. Miss Nell Cronin is instructor of this department. The American Association of University Women will have the state convention Friday and Saturday at Appleton. Local delegates were to be named at the meeting Saturday afternoon at the Colonial club.

**D. A. R. to Meet**—Janesville chapter, Daughters of the American Revolution, will hold the October meeting, Tuesday, at the Colonial club. A luncheon will be served at 1 p. m., followed by a program and business meeting. The annual dues are payable at this time.

**Former Resident Dies**—A son was born Friday, Oct. 10, to Mr. and Mrs. Norman Hild, 212 East Washington avenue, Madison. Hild is the son of Mr. and Mrs. Norman Hild, 628 North Washington street.

**Margaret Owen Engaged**—Mrs. John Henry Owen, Milton Junction, recently the engagement of her daughter, Margaret Mary, to Mr. Carpenter Hildreth, Chicago, son of Philip C. Hildreth, Fairfield, Ia. Miss Owen is a graduate of Beloit college and is affiliated with the Delta Gamma sorority there. Mr. Hildreth is also

a Beloit college graduate and a member of Sigma Alpha Epsilon. Miss Owen, who was formerly connected with the drafts department of the Merchants and Savings bank, this city, spent the summer with her sister, Mrs. Paul W. Terry, in Seattle, Wash., and also visited in California. She is expected to return to her home in Milton Junction, Saturday. No date has been set for the wedding.

**46 Presbyterian Women Gather**—Forty-six women attended the regular quarterly meeting of the Women's society of Presbyterian church, Friday at the home of Mrs. W. C. Graves, 210 Clark street. Luncheon was served at 1 p. m., with Mrs. J. Elow as chairman of the committee.

A program was arranged and given by Westminster society with Mrs. A. W. Kallies in charge. Reports were read of the progress of Dunagato hospital in the Philippines which is a hospital under the Presbyterian board. The Janesville church each contributed \$10.00 to the support of this institution. Plans were also made to contribute to an Indian school in Montana.

**Give Dinner Series**—Mrs. J. Ed. Scheller and Mrs. J. H. Scheller have given out invitations for two dinner parties for Tuesday and Thursday at the home of Mrs. Homming, 164 South Jackson street.

**Surprise Mr. and Mrs. Handy**—Mr. and Mrs. Charles Handy, 15 Arch street, were given a surprise party Friday night, in honor of Mr. Handy's birthday. Thirty-two guests came attired in hard times costumes. Five hundred was played and prizes taken by Mrs. Jesse Murray. Mrs. George Steiner, George McPhillips and George Duller. Mr. Robert Rogers and George McPhillips received prizes for appearing in the most comical costume. A delicious supper was served at midnight and a smoking stand presented to Mr. Handy.

**Thornton Read Gives Stag**—Thornton Read, route 3, entertained at a stag dinner Friday night with 12 men, members of a cribbage club as guests. A three-course dinner was served at 6:30 at a table decorated with Halloween favors. Cribbage was played.

**Miss Nowlan Entertains**—Miss Louise Nowlan, 202 St. Lawrence, was hostess Friday at a 1 o'clock luncheon at the Country club with 20 women as guests. Luncheon was served at one long table decorated with yellow chrysanthemums and leaves. Bridge and golf were played. Prizes at bridge awarded to Mrs. Lillian Mills, Mrs. Paul Owen and Mrs. Nell Cronin. Mrs. S. S. Solle won the golf prize.

**Give Family Dinner**—Dr. and Mrs. H. N. Nizum, 602 Milwaukee avenue, gave a family dinner party at the Colonial club Thursday night.

**Current Topics to Meet**—The first regular meeting for this season of the Current Topics club will be held Monday afternoon at the home of Mrs. J. A. Craig, 603 Court street. Officers will be elected.

**14 Play Golf**—Mrs. George King was awarded low net medal prize when the women's golf team played at the Country club Friday. Eighteen women were out for the luncheon, which was served at 1 p. m. Mrs. Arthur Harris acting as hostess.

**Church Women Plan Silver Tea**—A. H. Luytzer and Miss Mildred Gyles will enter a silver tea at the Congregational church, at a silver tea Wednesday afternoon at the home of Mrs. Luytzer, 607 Milwaukee avenue.

**53 at A. A. U. W.**—Fifty-three women were made for the first luncheon and meeting of the American Association of University Women, Saturday, at the Colonial club. Miss Elizabeth Young, University of Wisconsin, spoke of "Raising Funds for the Local Chapter."

**America Grove to Initiate**—America Grove No. 66, W. C. T. U. will meet at 7:30 Monday night at Janesville Center. A class of eight candidates will be received and the district manager, Mrs. Caroline De Witt, Milwaukee, will be present.

From left to right—Miss Annie Wilcox, Miss Priscilla Muggleton and Miss De Alton Thomas.

Local young women have been honored recently at the University of Wisconsin, where they are students in pledge to national sororities. Miss Annie Wilcox, daughter of Mr. and Mrs. J. L. Wilcox, 613 South Second street, was pledged Alpha Omega Phi. Miss Wilcox attended the University of Chicago last year and previously to that was a student at Ward Belmont, Nashville, Tenn. Miss Marion King, daughter of Mr. and Mrs. George King, 108 St. Lawrence avenue, was also pledged Alpha Omega Phi. Miss King was graduated from Abbott's academy, Anderson, Mass., last June.

Miss Priscilla Muggleton, daughter of Mr. and Mrs. Charles Muggleton, 141 Jefferson avenue, was pledged Kappa Kappa Gamma. She was graduated from Princeton, St. Louis, Mo., last June.

Miss De Alton Thomas, daughter of Mr. Albert Scheller, 1118 Mineral point avenue, won Gamma Phi. Miss Marion Tippet, Chicago, who has visited in this city frequently at the Scheller home, also won Gamma Phi. Both young women were graduated from Henry Hall, Lake Forest, Ill., last June.

waive, will assist in degree work. Madames Jennie Farlow, Elmer Dawnes and Besale Thurner will have charge of the lunch, which will be served after the meeting.

**Mrs. Fleck Entertains Club**—Mrs. Mary Fleck, 329 East Milwaukee street, entertained a three-table bridge club, Tuesday afternoon. Mrs. Edward Duthie won the prize. In two weeks Mrs. Leonard Gray, 435 Fourth avenue, will entertain.

**G. A. R. Ladies Honor Mrs. Gibbs**—Ladies of the G. A. R. gave a party, Friday night, at the city hall, in honor of Mrs. George Steiner, Mrs. Emma Gibbs, who celebrated her eightieth birthday this week. Twenty-five women were guests and after a social evening lunch was served at a table decorated with autumn flowers and yellow candles. A huge cake lighted with 80 candles was the center of decorations.

**Arrangements are being made to entertain the department president, Mrs. Elizabeth Hixby, Beloit. In two weeks Madames Adele Marcus, Rosetta Gaffey and Ruth Burrows are on the arrangements committee.**

**The circle is selling tickets for the P. W. Griffith movie, "The White Horse," which is to be shown Monday at the Beverly. Wednesday and Thursday. A silver tea will be given Friday afternoon at the home of Mrs. Adele Marcus, 529 Glen street.**

**Y. P. S. Active**—Thirty young people attended the meeting of the Young People's society of St. Peter's Lutheran church Friday night in the church parlors. Games and stunts were, diversions and refreshments were served. The Misses Dorothy Kingsley and Alice Volban.

**Former Teacher Marries**—Cards have been received in the city announcing the marriage of Miss Anna

McDonald, Plattville to James McGilra, this city, Oct. 7 at St. Mary's church. Plattville, Mrs. McGilra was a teacher at the Washington school for the past few years. Mr. McGilra is a conductor with the C. M. & St. Paul railroad. After Nov. 1 the couple will be at home at the Mead apartments, 478 North Terrace street.

**Art League Opens Season**—The Janesville Art League opened the fall season with a meeting, Friday afternoon, at library hall, at which there was a large attendance. Current events on art were given for roll call. Mrs. J. T. Hooper gave an interesting talk on the beautiful monument which was unveiled last week in Washington as a memorial to the boys of the First Division of the World war. Ten local men who made the supreme sacrifice have their names engraved on the monument.

Miss Charlotte Prichard, president of the club, spoke of the death of Charles Hutchinson, Chicago banker who died recently. Mr. Hutchinson was a patron of art and donated many of the most beautiful of the pictures in the Chicago Art Institute.

As Colonial art is to be studied this year, Mrs. Henry Traxler gave the first paper on that subject. Her paper was on "Pictures and Statues of Columbus." Many of the best known pictures and statues of the great discoverer are to be found in this country.

Madames Walter Helms, Charles A. Sanborn and F. A. Taylor were elected delegates to the state federation of women's clubs convention, to be held in Oconomowoc, Tuesday, Wednesday and Thursday. The president was empowered to name three other delegates to the convention.

**At the Colonial Club**—Mrs. Harley Smith, Evansville, entertained seven friends at the Colonial club, Wednesday. Dinner was served to the guests, who are residents of Madison.

George F. Gilbert, Rockford, entertained five at dinner, Wednesday night, at the club.

Mrs. W. Robinson, Rockford, entertained a small company at the Colonial club, Thursday, at dinner. The party attended the Jeff is theater in the evening.

Mr. and Mrs. W. Severn, Rockford, entertained a party of San Francisco friends, Friday night, at dinner at the club.

**Carnation Club Entertained**—Eleven members and eight visitors attended the meeting of Carnation club, Degree Honor, Wednesday afternoon, at the home of Mrs. Stanley Hanover. Sewing was the diversion and a lunch was served at 5 p. m.

## When Milady Goes a-Shopping

If you were to keep chugging right along for four whole days and nights, never changing your work or stopping for food or sleep how long do you think you would last? Not very long, I'm afraid, before the "old machinery" would wear out. "Not just yet?" Yet that is the acid test this wonderful Chevrolet is being put to these last few days. Possibly you have wondered many times lately why "that crazy man" never stopped running around the streets day or night. Well, that is the reason—his testing out the endurance of this unusual motor to prove to you and the rest of the world who might be the least bit skeptical that it has qualities enviable in the highest priced motor. The engine is kept in motion constantly for the hundred hours, even when taking on gas and oil. The drivers wear in shifts to be sure, but the engine never lets us its steady purr and is as peppy at the finish as it was at the start. Have you seen the test? Have you seen the new low swung bodies, a special model they have just put out? Know you would be just wild about its clever lines as you would about the new coach. If you haven't already found out I would stop in at the J. W. Motor Sales and inquire the easy way to pay for a Chevrolet.

Little Billy was the envy of all the mothers in the neighborhood for good health and sweet disposition. A regular chubby little "rolly polly" with red cheeks and adorable dimples, that appeared so happy, for as I have said Billy always had a happy smile for everyone. "He is the most remarkable child to me," commented one of the other ladies in the neighborhood, "for a child that had such a poor start in life. Why, I remember when he was born, he was way down right and the doctor thought he would never live to be a year old. His mother, discouraged with the slow progress he was making, changed to Gold Band Milk, recommended by the doctors because of its high percentage of butter fat. Within a month, Billy began to gain weight and such remarkable improvement, she gradually increased the amount until now, I believe he weighs as much as a day from a nervous, fearful backward child. He has changed to the most wholesome, even tempered boy in the neighborhood and actually took the prize for being one hundred percent perfect at the baby show. The doctor was so delighted at this change that he recommended Gold Band Milk as a diet for all children suffering from malnutrition. Most everyone in this street now orders a quart for each child a day" from Shultz's.

Three important lessons in the book of fall fashions are the slim silhouette, the very decided shorter skirts and the continued and the consistent favor of the tunic. We see these featured in several smart models of becoming, broadened and more in the long, straight piece tunic to the knees, split either in front or on both sides. In most cases they are combined with the very narrow, short under-skirt of some shimmering satin. Variations of these appear in the tunic effects either circular or straight, skirts and the other otherwise straight-line frock. One perfectly stunning model shown at Simpson's this week is of brown satin crepe, the body of which is in the crepe, the circular tunic at the bottom of the skirt with three narrow bands above in the satin surface of the model. Bands of brown fur outline the neck, the sleeves and bottom of the tunic. And that brings me to another important point. The most popular outfit shown in New York as in Paris is the dress of two surfaces of lustrous satin crepe. This vogue appears in some form or other in most every model Simpson's shows this season. For example, three wide folds of crepe finish the bottom of a dress of lustrous satin material in a beautiful shade of cinnamon. The soft trimming for this rich costume is the collar and deep cuffs of the most exquisite antique Venetian lace. The face has taken the mode by storm and appears as trimming in motifs, flounces, jabots and what not. For correct evening wear, chenille brocade for a quart or whole dress is in favor. Simpson's shows a black dress, the upper part of which is the chenille brocade combined with the crepe satin skirt. In fact, a different type of gown for every type of wear or occasion is to be found in Simpson's Garment Store.

Today, Saturday, October 11, is National Candy day. Observed all over the United States, in many places it has become a big day, occasion for remembering sick friends, and those who aren't so sick and those near and dear to one. Gradually Janesville is beginning to take the idea and Tazook's have received many advance orders for fancy boxes of candy and even box candy to be delivered on this day. Now act like the candy king and have a brand new kind of day suckers, called Lily Pops, that come in orange, lime and butterscotch flavoring. They are the most delicious of whom some candy and none need to be afraid to let the kiddies have all they want of them. I received a box of Lily Pops from Tazook's the other day. "I thought it was a book at first. It so resembles one that it is called the novel box. But it contains more sweets than the best love story you ever read, large luscious bitter sweets with chocolate and vanilla centers, and it only costs fifty cents. It was not supposed to know this, but I discovered the price in small figures on the back and it was too good to keep. Every kind of a sweet you could imagine has been provided for this day—the sweetest day in the year—so if you have not already put in your order, better hop right down tonight and pick out a nice box, lest your friends think you thoughtless in remembering these important occasions.

They say "Beauty is only Skin Deep," but since none of us care to be skinned, the best thing for us to do is to seek all the wisdom and science of the beauty experts to make us fit to meet the cold scrutiny of the passing crowd. True—let it? Well girls, here's good news for you. We're about to have a brand new beauty parlor open up here with all the up-to-date and surroundings of a real city shop. It is to be known as the Harris Beauty Shoppe, a real beauty parlor, real and reliable while waiting for one's hair to be done. And from what I hear they are going to be well worth waiting for, girls, for an expert manicure arrives from Madison this week. She has a Wisconsin state manager's license and "throws a wicked wave." Remember, speaking, though, the Harris Beauty Shoppe is to be one of the best equipped in town. It has one of the most modern dryers, a Violet Ray for face and something which is new to me—Violet Ray comb which is most beneficial for scalp treatments. Everything is to be most sanitary, with individual towels and comb service for everyone. But the main are to be their chief forte, for it is the problem of every last one of us to get a marcel that is artistic and soft and at the same time lasting. This is the kind of a wave you will get at the Harris Beauty Shoppe. Better call 2664 Monday and have them book you for an appointment. You will find the parlor in the rear of the Harris Hat Shoppe at 108 E. Milwaukee St.

Already five hundred students in Janesville and Edgerton have entered The Home Lighting Exposition arranged by the educational committee of the electrical industry in the United States and Canada. This contest is open to every boy or girl over the age of 12, enrolled in the high school, and has a prize of \$250.00. The purpose is to inform the children and their families in the proper use of electric light and to show that there will be less eye trouble. The proper placing, the "proper shading etc., are vital elements in preventing eye strain under the stress of the day. This committee feels that by educating the younger generations in these matters it is performing a great service. The prizes are a great source of pride for so worth while that every boy or girl who is eligible cannot afford to stay out of this contest. Think of it. The national prize is a \$15,000.00 electrical home and ten scholarship prizes to the leading colleges and universities ranging from \$1200 to \$3000 or an average of \$2200 a year for four years. Here is a chance for some deserving boy or girl to win a wonderful college education. For a list of the prizes and local prizes, contributed by local dealers, for boys—a flashlight, a chest of tools, an Iyer Johnson bicycle, an order for clothing and five honorable mention medals. For the girls there is a diamond ring, a wrist watch, a electric percolator set, set of dishes, a set of pencils and a set of five honorable mention medals. Here is what you do to get it. Observe the lighting in your home and that in two of your friends, then write an essay on it. The model electric home will be open for inspection at 323 Prospect Ave. from 10 a. m. to 5 p. m. Wednesday through Saturday. The public is invited to visit this delightful home. If you have not already entered this contest, do so at once. Get your Home Lighting Primer at any of the electrical dealers and begin today.

## How Do You Do It?

"How do you keep so fresh looking when you're traveling all the time?" asked the merchant.  
 "Easy when you know how," said the traveling man.  
 "Sometimes it's a week before I can get a room with bath, but as long as I have my pet brand of soap, it doesn't worry me a bit."

"You see, this soap is germicidal. It kills germs. It hasn't any odor of its own, but it sure does kill the odor of perspiration."

"A sponge bath with Purple Heather Soap every morning and night, a change of linen and I'm all set. It's a great soap."

## Something New In All-Wool Flannel

Flannels are extremely good and among them one finds not only the usual things, but several new lines which are distinctly original and adaptable. One of these, in which customers have seemed particularly interested, is a flannel which, for lack of a better name, is somewhat slangily known as "half and half." This flannel, as its name implies, is half of one color and half of a harmonizing or contrasting shade. It is 54 inches wide, and the width of the material is for the length of the dress, so only enough is needed to allow for the necessary skirt width and sleeves. There is a border sufficient to trim the collar and sleeves, and to edge the pockets. The effect of this flannel when made up is extremely smart.

See Window Display.

## \$4,500 RAISED IN ARMY CAMPAIGN

Hope Additional Amounts Next Week Will Fill Quota of \$6,700.

With a number of workers still to report receipts from the Salvation Army drive amounted to a little less than \$4,500 cash and pledges in hand Thursday. The quota for the Janesville district is \$6,700. However this quota is for the entire northern half of Rock county and includes items which outside towns are expected to contribute to state and divisional work of the Army. It is hoped that \$1,200 to \$1,500 additional will be raised in Janesville, within the next week.

The campaign committee requests that any one who has not been solicited and desires to give, send his check or pledge to the Chamber of Commerce early next week. It appears that the territory has not been as thoroughly canvassed as might be desired and probably will not be covered. Two or three large industrial plants that gave liberally last year are expected to report the coming week.

**Pake Solicitors Out.**  
The committee also urged that any one solicited by persons wearing a cap similar to that of the Salvation Army, investigate the credentials of such solicitors. It is stated that other organizations are sending solicitors out in the form of Salvation Army drives and that a number of people in this vicinity have reported giving money to these solicitors with the idea that they were contributing toward the Janesville Salvation Army drive.

**Speak in Footville.**  
The D. N. B. club of employed girls has secured a gift of \$5. Other organizations contributing since the last report are Western Star Lodge of Masons and Janesville Commandery of Knights Templar.

Captain and Mrs. Boyle have been invited to speak at the Christian church in Footville Sunday night on the work of the Army.

## Fire Truck Is Taken to Kenosha

Chief C. J. Murphy, Mechanic Fire Department and Firmin Edward Lichtner, went to Kenosha on Saturday, driving the big Senger truck to the plant of Peter Fisch & Sons, where it will be equipped with a \$2,500 pumping device. The job is expected to be completed in about a week. The chief and his assistants will be in Kenosha when the truck is returned to Janesville. It will mark the fulfillment of another recommendation made by Inspector Daniels last spring.

## TICKET AGENTS TO MEET IN BUFFALO

Alva L. Hemmens, local agent for the Chicago & North Western railroad, and his wife, will leave Tuesday to attend the annual convention of the American Association of Railroad Ticket Agents, to be held in Buffalo, N. Y., Oct. 16-18. They will go on a special train from Chicago. A number of agents have been arranged during and after the convention, including a trip on the International and Niagara Great railroad, and another around the various islands on the Maid of the Mist boats. The visitors will also be taken to East Aurora, N. Y., to visit the Roycrofters, founded by Robert Hubbard, then to Albany, with a day trip down the Hudson river to New York City, where they will be entertained on the Cunard liner, Marconi, with a dinner and ball on the evening of Oct. 20.

Mr. and Mrs. Hemmens expect to return about Oct. 24.

## WORTENDYKE TO GAS CONVENTION

Mr. F. Wortendyke, vice president and general manager of the New Gas Light company, leaves Sunday for Atlantic City to attend the annual convention of the American Gas Association. The sessions will open Tuesday and continue through Thursday.

A program and box social will be held at the Maple Grove School, six miles north of Edgerton, Tuesday evening, October 14th. Agnes Volm, teacher.

## La Follette's Flowing Pompadour Sets a Fashion in Hollywood

## TEACHERS OF RUTLAND TOWNSHIP AT PLAYDAY

Miss Esther Krakow, supervising teacher, and P. Reed Austin, play day leader, were snapped with a group of rural teachers at the Rutland township, Dane county, play day held recently at Starr school. Those in the picture, left to right are: front row: Miss Anna Larum, Oak Hill school; Miss Hazel Hanson, Hillcrest; Mrs. Helga Offerdahl, Flint; Miss Ruby Lillesand, Starr; back row: Miss Anna Purcell, Hillcrest; Miss Beulah Parham, Starr; Miss Esther Krakow, P. Reed Austin.

## SUGAR PLANT TO START PRODUCTION

Largest Crop in Eight Years Will Keep 250 Men Employed.

Facing the task of converting into sugar the largest beet crop enjoyed in eight years, the mammoth Rock County Sugar company plant at the city limits will start the season Tuesday, with a force of 250 men employed. A force of workmen have been on hand all week painting the machinery and making other repairs incidental to the "canning," as it is called. A total of 50,000 tons of beets, harvested from 5,500 acres is expected to be shipped into the plant during the next 90 days, during which the plant will be in operation. From these beets, the company expects to make 12,000,000 pounds of sugar.

James Fertlage is the manager and W. C. Marks, the superintendent. Mr. Marks said present outlook is for an unusually high crop.

## Club Looks for Successful Year

Reports from the membership that a large sale of tickets has been made for the Apollo club season which opens Monday, Oct. 26, at the high school when Reinald Werren, baritone, will give a concert. The Apollo club is another successful season for this club. The membership committee is to meet at 10 a. m. Monday at the home of the president, Mrs. J. J. Whitfield, 646 Garfield avenue, to report the total sale of tickets. An exceptional program has been arranged for the season. On Nov. 17, the Phoenix quartet, known throughout the musical world, and on March 20, Harold Bauer, master pianist, will give concerts. On November 20, next to McCormick, is the most popular of soloists. His American birth and genial personality, coupled with his rare talent, have given him a following throughout this country. When he appeared in Milwaukee he was given an ovation at the close of his concert.

## JEWISH HOLIDAY OBSERVED SUNDAY

Following the day of Atonement, Oct. 7 and 8, Janesville Jews will observe the Feast of the Tabernacle, another important Jewish holiday, here Sunday. Services will be held on the third floor of 22 South River street, starting at 6 p. m. Sunday.

Milton H-Y Opens Season—The first meeting of the noon-day branch of the Milton Union H-Y club will be held Wednesday noon.

## MCCOY'S LEASE BIG FLORIDA HOTEL

New \$650,000 Building at Miami Beach Taken by Local People.

Mrs. Anna McNeil and son, William R. McNeil, of the McNeil Hotel company, Janesville, have leased the new \$650,000 William Penn hotel in Miami Beach, Fla., according to announcement made Saturday by Mr. McNeil. Following receipt of a telegram from his mother that the deal had been closed, the lease is made with the option of purchasing at the end of the first year.

The hotel, now being completed at a cost of \$750,000, will contain \$7,000 worth of furnishings, and is expected to be ready for opening about Nov. 15, Mr. McNeil said. It contains 102 rooms, every one with bath, and is located on Washington avenue, two blocks from the ocean and five blocks from Biscayne bay.

Mrs. McNeil is now in Miami Beach and is expected to return home Tuesday. Mr. McNeil returned several days ago, after completing preliminary negotiations for the lease. At the time he found, visitors were beginning to arrive in Florida at the rate of several hundred per day and, beginning Nov. 1, it is announced that 25 trains will run from Jacksonville to Miami to handle the influx of winter tourists.

The McNeils will continue to operate the hotel in a close partnership with the William Penn hotel in Miami Beach, which will be open only during the heavy tourist season, from Nov. 1 to April 1.

## SULPHUR CANDLES CAUSE \$350 BLAZE

Apartment House Fire Saturday One of Worst So Far This Year.

Fire caused by sulphur candles burned in a closet for fun, Saturday morning, did \$350 damage, Saturday morning, in the apartment of Mrs. M. C. Draper, 165 North Franklin street, before it was extinguished by the department with the aid of hand pumps and chemicals.

The blaze was not discovered until it had considerable headway, there being no one at home at the time. Neighbors noticed the smoke at 8:30 a. m. and notified the fire department. Several pieces of furniture, rugs and bedding were destroyed and the damage to the building was \$350. The loss on the furniture is covered by \$400 insurance and it is estimated that the damage to the building is covered by a \$1,000 policy owned by the Standard Oil company. The loss was the heaviest since the fire in a house on Milton avenue early in the summer.

At 7:15 a. m. Saturday, the firemen were called out to extinguish a blaze in two apartments on the second floor of the Garfield block, 165 North Franklin street. The fire, caused by sparks from a chimney, resulted in a loss of about \$10, Capt. David Baxter reported.

## FUMIGATE MORALS 'OF NAUGHTY PAREE; ROYALTY EXPELLED

Paris—The Parisian underworld is to be cleaned up and, while the authorities are about it, they have decided to purge the upper world as well.

Prince Louis Ferdinand of Spain, who also is a French prince, a great-grandson of Queen Isabelle II of Spain, and a possible heir to the throne of Spain, as well as to that of France, if the monarchy should be restored, is to be expelled from France on a delicate question of morals.

Almost simultaneously, the authorities have announced that stern measures will be taken to rid Paris of its naughty immoral city as the most daintily immoral city in the world.

## City News Briefs

**Sends Football Reports.**—George C. Maties, manager of the local Western football team, has been assigned Saturday where he assisted in handling newspaper reports on the Wisconsin-Coe football game.

**Theft in Milwaukee.**—Sheriff Fred Beley was notified Saturday by the Milwaukee police department that a Dodge sedan with a license number 1-8244 had been stolen from Milwaukee.

**Marriage License.**—Application for marriage license was made at the county clerk's office Saturday by Mr. Frank Bartel and Marie M. Kettig, town of Janesville.

**Foreclosure Action.**—J. W. Westby, 165 North Franklin street, filed a foreclosure action against J. M. Henderson in the Rock county circuit court.

**Edgerton Group Wednesday.**—The advisory committee and prospective group leaders of the Rock County Y. M. C. A. will meet in the Edgerton high school at 7:30 p. m., next Wednesday.

**Boys in Court.**—A. E. Bergman, community boys' work secretary, and A. E. Kitch, assistant principal of the high school, were present in municipal court Saturday when six high school boys were brought before the court on charges of breaking windows with stones. The boys must pay for the damage caused.

**More Repair Work.**—Additional street repair work is planned by the city this fall, an order, having been placed Friday for 10 more barrels of tar.

**Motorcycle Stolen.**—Stanley Anderson, 521 Chestnut street, Janesville, has reported the theft of a motorcycle from his car in Edgerton Friday night.

To First Aid School—Police and firemen are making plans to attend the first aid school opening at 1:30 p. m. Monday at the Chevrolet club. The school will continue for five afternoons.

**Kearney Here Tuesday.**—A large turnout is expected for the theater Tuesday night when Thomas M. Kearney, Racine, prominent democrat, will speak.

## VOICE OF THE PEOPLE

Editor Gazette:—

Governor Blaine is running for reelection on a meaningless milk and honey platform, evidently dictated by himself with the aid of the socialists. He will now, as in the past, promise tax reduction, and in only recently that he told the voters that he would reduce taxes. He reduced during his administration, but he did not explain how it comes about that we are nevertheless paying more taxes than ever before.

Did he not tell the people of La Crosse just a short time before the election that it was his intention to spend \$40 on the highways, out of every \$100 collected in taxes, and at the same time fail to tell them he had in his pocket a check for \$100 that he refused to cash? Did he not fail to tell the people that in the highway construction was under way?

But he nevertheless styles himself a "tax reducer" and yet the same time approves of permitting the tax commission to spend \$225,000 to have our property assessed for more than its value and to give \$100,000 of that money to the highway department to spend on the highway. He is a tax reducer, but he is not a tax reducer. He is a tax collector.

Our light-wad governor submits willingly to the conservation commission, spending \$25,000 a year, but who is benefited by that expenditure except the duck and deer hunter and the wall-eyed pikie and the blind cat?

It is quite plain his understanding of a light-wad governor is one who has no objection to the state spending \$25,000 a year to maintain the office of state fire marshal which at most can only serve the insurance companies, and we pay as much for insurance protection as he does, and follow it up by an expenditure of \$400 a day for a marketing commission that never produced market for much as a cabbage head.

But our light-wad governor claims to be consistent in other matters by naming the republican presidential ticket, and yet he is not consistent in either of them. He approves without protest a system that takes from state banks and trust companies \$25,000 a year for the payment of state and local government expenses, but more than 30 percent of the net income of the farmer for the same purpose. He approves no injustice in extracting from the farmer taxes on his farm in excess of its rental value. He further dem-

## Gnat-Filled Air Gives Motorists tha Willies; Goggles, Curtains Help

Strong wind, a hard freeze or fog for the season of gnats which has descended on this section of the state during the last few warm days.

Not being able to produce either a wind or freeze, the goggles seem the only remedy left for those who must be out-of-doors. At present it is impossible to see much—not on account of the vast swarms obscuring the sun, or anything of that sort—but because the sun seems to think eyes are the proper places to stop.

Those who walk boldly down the street with their eyes open soon get an eye-ache, and those who do not shut their eyes, close their— and neither can see. Conclusion—lumps are common.

Down at Kewanee, Ill., where an equal number of the posts are reported in the air, the mayor of Kewanee, Howard C. Mellow, drove his car into the ditch when blinded by a cloud of the insects, but escaped unhurt.

Up in this section motorists are wiser. They put the side curtains on and measure the bugs by ounces instead of quart. The gnats are not so bad there. Either they love them to greater ferocity. They hit harder in the sun, anyhow.

Remember the hosts of insects or something which descended on the land during the captivity of the children of Israel? Stray cats or dogs shut in woodsheds, or possibly goldfish, far from their native waters may account for the plague. The gnats are enough—nobody wants it followed by frogs.

From a connection of beetles and gnats the Mexicans compound a popular and high intoxicating liquor.

12 cup almonds.

2 slices Del Monte pineapple.

12 cup whipped cream.

Mix fruit with salad dressing, add sugar to taste.

More than 300 Frank Waltons from Wisconsin outside of Janesville are expected at the banquet of the second annual state convention in Janesville, Oct. 14. It is announced by J. B. McCrory, secretary of the convention. He already has received 121 reservations from 24 chapters. He has written to W. E. Hoyer, secretary of the Janesville chapter, and expects three times many.

The league is growing rapidly. Twelve new chapters were taken in during the past week, making a total of 84. The new ones are located at Marion, Algona, Wautoma, Sheboygan, Neenah, Menasha, Black River Falls, Neenah, Newburg, Cassin, Sparta and Shawano.

Delegates will start arriving on Oct. 13, when the board of directors and committees will meet to prepare for the business sessions proper on the 16th.

constrates inconsistency by running on the republican ticket and repudiates republican principles and at the same time condemns the Ku Klux Klan and accepts the socialist and labor radicals, while two years ago the Klan was as welcome as the flowers in May.

However, his inconsistencies reflect upon his character and touch only one neck-and-neck, but the most dangerous of all his works and all his wars is his approval of the scheme to amend the constitution as to permissive legislation reversal of decisions of our court of last resort and if the industrial commission spending \$25,000 a year in every state will be continually in session reviewing court decisions, thus making room for another large army of useless holders, and pave the way for a radical legislature to pass laws forbidding sending our children to our own parochial schools and to our instruction has been done in other states, and thus destroy the very foundation upon which government rests.

Therefore, I say, it is the duty of the people in general and those of us who are true republicans in particular to join hands and work for the election of Judge Luedek and the rest of the democratic state ticket and thereby forever put an end to the strenuous efforts to amend the constitution to suit the appetite of the irresponsible politician.

Respectfully submitted,

CARL CHRISTIANSON,

Dedrick, Wis.

Rain Good for New Suits.

Cloth from which suits for men and women are made is invariably kept in a moist condition when being made up at the mills in order to give strength to the wool and to prevent breakage when it is being woven. A dry atmosphere would mean many "faults" in the piece. For that reason cloth makers are occasionally will to let a new suit rain on it, but on the other hand will do some suits a lot of good. One tailor suggests 10 minutes in a misting rain as the best "dressing" for a suit, especially in the early days of its life.

## PARK ASSOCIATION SESSION ON NOV. 12

1925 Fair Plans Will Be Made; New Arrangements Are Expected.

The annual meeting of the stockholders of the Janesville Park association will be held in the livestock pavilion on the grounds Wednesday, Nov. 12, starting at 2 p. m. Decision will be made on the fair policy to be followed during 1925.

Stockholders will decide on a resolution to increase the directorship from seven to 12 members to obtain added representation on the board. Under the proposed system four of the 12 directors would retire each year.

Policies to be followed will be discussed. It is almost certain new arrangements will be made regarding the fair. Adverse weather conditions have put the fair in the hole and it is proposed to hold a summer race meet with an outstanding speed program, and the agricultural fair and livestock exposition later when weather conditions are more certain and farm work less demanding.

A financial statement is being prepared for the annual meeting showing the loss for the year. This will be presented at the state conference next week to collect the state aid granted on agricultural premiums.

Had Picnic. Supper—Twenty-five girls, members of the advisory group, had a picnic at the state conference, hiked to the Pines after school Thursday for a picnic supper and wicker roast.

Making the City a Better Place in Which to Live

A man from Seattle went down to Portland, Oregon and remained two days. On the third day a friend from his home town found him sitting in front of the Hotel Portland waiting for the time when his train would leave. "When did you leave Seattle?" asked the newcomer. "Three days ago," was the reply. "Three days," said his friend. "Man, you ought to see her now."

That is civic pride. That made Seattle, put it safely through a panic that ruined hundreds of business men and stagnated growth for a few months. But they never lost courage, kept right on toward the front, and made a great city of a little town. That is what made Atlanta, Georgia, with no special advantages, burned during the Civil war, a pile of ruins and no great special industry ever to locate there. Talk to a man from Atlanta and you will be sure there never was a city like that, now or existing in the past. That is civic pride—pride in your own town and the place in which you live. No man in Atlanta or Seattle will try to tell you "what is wrong with the city" and they never have. On the contrary, all old and young, black and white, workmen and professional men, will tell the stranger that their city is the best in the world and prove it.

That is the thing that counts. That is the thing that makes for happiness and love of home and eventually works back in prosperous business. "Is this a good city in which to live?" is a question that comes before that other, "Is this a good city in which to do business?" and having answered those in the affirmative the rest is easy. A city may be great without having swarms of people living in tenements and eking out an existence on the border line of poverty. It may be great when it has less people and more of the things that make for better living and the realities of a full and complete life.

Janesville is a good place in which to live. It has beauty, good location, surrounded by the finest country anywhere and no man or woman may blush for answering that he or she is a resident here. We need a few more things here and they will come. We have been getting them in the past few years and we shall have others which will better answer the question: "Is this a good place in which to live?" We have the throwers of bricks against the wall of progress but they will be dead, voiceless and unheard eventually.

We need a Y. M. C. A. building. We have outgrown the older one. It is far inadequate. The needs are great. We ought to have more rooms for travelers and for those who seek a home in surroundings such as are afforded by a Y. M. C. A. In every city worth while the Y. M. C. A. is as much a part of the city itself as the public library, churches and hotels. And so those who have felt for a long time that we should add to Janesville such a building as will be in keeping with all else in the city, have commenced to ask for funds—a large sum it is true, but not so large as other cities of about the same size of Janesville, have frequently given. The Gazette last night announced the gift of \$10,000 by Frank S. Baines. Another of the same amount is announced tonight from Mrs. Julia Lovejoy.

There is a good start. But larger gifts and smaller ones must come in generous number if we have the building. We have examples of what neighbors have done and how these cities are prouder, in the possession of such fine structures where the youth have a center of activity and citizenship is bettered in the making.

There is no better time than now to get at it and have it done. Never is there a golden opportunity—most of the opportunities come from making them. Here is where Janesville takes a step upward in the building of a new civic spirit and a new and brighter tomorrow.

About all the value in the straw vote is a lot of chaff.

Our eyes do not get the Jap slant but what seems to be the desire of the Nippon empire is to write the immigration laws for the United States.

Mr. Zimmerman Has a Mind of His Own

Attorney General Egan said in making his decision against placing the Socialist-Labor and the Land tax elections on the ballot that "it was the law." That was the court's answer to the plea of Porto in the Merchant of Venice. It was the plea of the judges of the California supreme court and quoted only yesterday by young La Follette as a reason why the United States supreme court should be relieved of some of its powers. By the same argument we ought to abolish the attorney general of Wisconsin. But we have a secretary of state who is not moved by peanut politics, in the person of Fred Zimmerman. He, most fortunately does not stand as high in the estimation of Governor Blaine. But he has some nerve and does some thinking for himself and so he has placed the names of the electors of the other independent parties on the ballot. The action will make little difference in the voting for president for neither of the two parties in question will poll a vote of any consequence. But Mr. Zimmerman has added to his standing in the state by exercising a little independence all the more surprising when punishments are so swift and sure in the party with which Mr. Zimmerman associates.

An aged citizen says he has never known a campaign when at one time or another a charge has not been made that a corruption fund was

## THE AMERICAN GOVERNMENT

XIV—The Department of Agriculture

By FREDERICK A. HASKIN.

(Continued from Friday.)

The bureau of animal industry performs veterinary and experimental work for the improvement of the country's livestock industry, including disease and health studies, enforcing the laws passed by congress to control and eradicate animal diseases and parasites, and maintains quarantine stations where animals from foreign countries are inspected to prevent the introduction of diseases and livestock pests. As you buy meat from the butcher shop perhaps you have noticed the little purple stamp upon it. This is a government stamp and is your guarantee that the meat is wholesome and fit for human consumption.

The bureau of chemistry has one of its chief duties the enforcement of the pure-food law, the object of which is to see that foods and drugs are free from adulteration and misbranding. At a banquet in Ohio several people were made violently ill from eating canned food in which a toxin had developed, and four or five died. Through the cooperative efforts of federal, state, and city food officials, the toxin was traced to a certain brand of condensed milk which was found to be contaminated with a toxin which was removed from the channels of commerce, although it was probable the toxin had developed in but a few cans. The work of the chemist covers a wide range of useful discoveries, from more efficient methods for making cane syrup to treatments to make harness and shoe leather wear longer.

The bureau of agricultural economics is a combination of all offices and divisions concerned with everything that affects farmers' incomes and profits. It studies the local and national crops and livestock to raise, how to keep cost accounts, how properly to prepare products for market, where and when to market, and market prices and demand. The data on crop production are gathered by hundreds of agents in all of the great markets, and by thousands of individual farmers, and are wired and mailed to Washington where they are immediately compiled. The resulting information, of extreme value to farmers in making their future plans and following the trends of the market, is broadcast without delay through the press, radio, wire and numerous publications.

The forest service administers our national forests consisting of over 150,000,000 acres. It is the scientific farmer in charge of our valuable crop of timber. It protects the timber from fire and other damage and supervises the work to see that timberland is reforested. Existing laws provide for state cooperation in the protection of their forests and 25 of the 33 forest states now share these benefits.

The bureau of public roads has charge of the government's share in the construction of roads which the government helps the states build by paying about one-half of the cost. These roads are constructed under the combined direction of this bureau and the state highway departments.

The bureau of entomology studies insects and finds new means to eliminate the great damage which they do to growing crops and to domestic animals. The principal insect pests with which the experts are working in the hope of finding effective remedies are cotton boll weevil in the south, the gypsy moth and the brown-tail moth in the northeast, the European corn borer, and the Japanese beetle which damages grapes and fruit trees.

A special board within the department sees that fraudulent insecticides and fungicides are not sold. One "bill" doctor had a capsule which he said would cure fruit trees of insects and diseases if placed under the bark of the tree. It was found that these trees so treated produced abundant foliage and an abundant crop of fruit, but the government found that these trees were merely making a last fight against the poison of the capsules. It is several years before the manufacturer of this "cure" was convicted. Another manufacturer had a new egg made of machine which was reputed to kill lice and mites and at the same time act as a nest egg. Such a discovery, the department thought, would be worth much to poultry raisers if successful. It was found, however, that the "egg" had no effect on lice and mites.

The annual loss to agriculture from rodents has been estimated to exceed \$500,000,000. This has been reduced materially through the campaign led by the bureau of biologic survey, and most of the rodents on a million acres of public and private lands have been destroyed.

Specialists of the survey study the habits and distribution of native and imported wild life in order to assist in preserving the useful and harmless species. From field and laboratory investigations, scientists of this bureau have been able to demonstrate the value to agriculture as destroyers of insectivorous insects. Of the 1,200 or more species of birds native to the United States and Canada less than 1 per cent are really injurious.

The bureau of soils has discovered the importance of knowing about soil conditions of other parts of the world, and their resemblance to soils in different states in this country. It was learned that almost every state resembled some area of country in Europe. For example, the Kentucky blue grass that we think of as typically American, grows on limestone soil like that of a portion of France. The soil of Old Bohemia is almost identical with those of southeast Pennsylvania. One reason for the unusual success of the thirty Pennsylvania farmers may be due to the fact that the soils of southeastern Pennsylvania are almost identical with those of southern Germany. Even the famous soil of Ireland is duplicated along the coast of Washington and Oregon.

Not being collected by one party or another to "buy the election."

Senator Borah will vote for and speak for President Coolidge if he has time after making an investigation called for by La Follette into the republican campaign funds and also into the source of the La Follette campaign money. Senator Borah says President Coolidge is the only president who has had the courage to combat the growing tendency toward bureaucracy and extravagance, and because of this, "President Coolidge is the greatest man in the political history of the United States" emphasizes the senator. "Courage is a rare thing in Washington and President Coolidge has it." That is the real issue. Do we want courage and strength in the presidential chair?

Walter Johnson is an example of persistence. When today's staid business men were boys playing ball in back lots, he was already a great ball player. Victory comes to the man who sticks to the end.

More persons will want to be president now that they know that he can see a ball game without having to get in the jam or wait in line for a ticket. On the other hand he can see a newspaper man and one has about as hard a job as the other.

So far we have not had a word from ex-kaiser Bill as to which of our three candidates he would support for president. You can have one guess.

The second son of Princess Mary will be named "Click." In school the little boy will be "Click" and we can't.

## JUST FOLKS

By EDGAR A. GUEST.

AUTUMN

Red and gold! Red and gold!

Like the leaves of frost have rolled.

Youth has fled each sunny garden

And the trees are growing old;

Now in splendor stands the maple

For the crickets to behold.

"It is done! It is done!"

Says the elm tree to the sun.

"Spring and summer have I labored.

Have I failed, or have I won?"

Is the flicker which has fashioned

Plum for God to look upon?

Age is near! Age is near!

'Tis the ending of the year.

And a hush lies on the valleys

As the mist begins to clear;

Now in purple and in scarlet robes

The tapers all appear.

When I'm gray! When I'm gray!

And I reach my autumn day.

And the soul which I have fashioned

As it lies, must ever stay:

Is the flicker which was in splendor

May I also pass away.

HOROSCOPE

MONDAY, OCTOBER 13, 1924

Although this is the thirteenth of the month

good luck appears to be fairly certain. According

to astrology the Sun in benefic aspect domi-

nates. Late in the evening Saturn is ad-

verse. All the signs indicate the prevailing con-

dition between old and new ideas of life with victory

for the more radical views.

Again the seers emphasize the passing of an

old and a new era. The new era will be a

greater gain happiness must move with the pro-

gression of progress.

This is a fortunate rule for persons with high

ambitions and should greatly benefit a candidate

for high office on the expiration of this day.

Scandals that are becoming more and more

the next few weeks in which there will be many

distorted character studies of prominent men.

They who read the future declare that the re-

sults of the election will have the element of

element of surprise, but they will not overcome

all precedent.

The evening of this day may be especially

unfavorable for those who take the risk of traveling

in dark or dangerous places. The day will be

marked by the continuation of numerous organiza-

tions of evil doers will gain power, the result

of looting.

Revelations regarding prisons and methods of

dealing with offenders are to explain much that

has puzzled the average good citizen, astrologers

forewarn.

Changes among the leaders of organized labor

and among the leaders of the new order of things

is to come into the domain of the workers as

well as in every other department of human

interest and activity.

Good prospects are foretold for those who

will do their duty and who will be many jewels, pictures and art objects

## Personal Health Service

By WILLIAM BRADY, M. D.

Noted Physician and Author.

HOW TO REDUCE YOUR WEIGHT

My apprenticeship as a waiter for four years in the Y. M. C. A. was a most interesting experience. I am still waiting on some of the folk I waited on there 20 years ago. There were times, too, when I fasted, hoping to reduce my weight that way, but without any appreciable success. But this was before the place went dry. It was just as if I had moved on to a fresh field the moment before they closed up the hotel in San Yuen. From that time on things were better. I could eat and drink as much as I pleased and still keep my weight down. The other is by working or taking exercise. Most overburdened folk choose the latter as the lesser evil, but it is faster, hoping to reduce my weight that way, but without any appreciable success. But this was before the place went dry. It was just as if I had moved on to a fresh field the moment before they closed up the hotel in San Yuen. From that time on things were better. I could eat and drink as much as I pleased and still keep my weight down. The other is by working or taking exercise. Most overburdened folk choose the latter as the lesser evil, but it is faster, hoping to reduce my weight that way, but without any appreciable success. But this was before the place went dry. ## Capital Is Bugs Over Walt's Win and Nat's Title

Washington—Baseball's Trojan war is over; and Washington, capital of the allies, celebrated far into the night the return of the fair Helen, carried captive to New York and held there throughout four years. Aimless, spontaneous, contented, joyous—even beautiful—was the service of thanksgiving which the city, in the greatest demonstration since the signing of the armistice, rendered its heroes and its gods. For Washington believes in its gods; is certain that on the pointed peak of the monument rest Olympian deities that watched and waited and tested and tantalized their votaries during the trying days of the series; and then at the end, conferred and said:

## Busy Man's Sport Page

WALTER JOHNSON! Up from the grave of baseball pitchers, he arose in a spectacular resurrection Friday afternoon and the baseball world has gone berserk. They called him dead, but he lives. The "day-hawker Cyclone" blew into the deciding game of the 1924 series in the first of the ninth and wrecked the house that Jack built. He got the credit for the win and the ambition of a lifetime was his to be the victor in the classic of the universe. Three days ago, the scribes penned his obituary in sorrowful notes. They told his 38-year-old arm had lost its power. They said that Walter would never again be the "day-hawker" who in the old days had joined in the on-again off-again fight now! He lives! In the last four innings of the second game, 12-inning contest, Johnson showed the classic in a remarkable exhibition of nerve, control and head work. Good old Walter.

IN THE PAST two days there have been reported sales of minor league baseball players to national league teams at fabulous sums. Most of the Philadelphia Athletics have purchased "Lefty" Groves of the Baltimore International league club for \$200,000. In cash, the money to be paid in yearly installments. It is strange to hear such news when the big leagues passed this rule last winter. That the minor league stars hereafter be limited to \$25,000 per player. The fans used to say that high price they were the bane of the game. Now they are saying that the agreement between the Nationals and the Americans has been violated.

THE HEADLESS horseman of Washington Irving had nothing on Bentley Johnson and Rice in the third inning of Thursday's "Rice" series game. Now they know that "Rice" is a line drive on the run and hurled it in the general direction of the pitcher's box. Bentley made the grave error and bent to return to third before resuming the journey home, and Johnson failed to back up the plate. In consequence of which Johnson was in position to throw the ball when he should have been elsewhere; Bentley was retched at the plate when he should have been standing up. Rice got credit for an assist when he should have been credited with an error.

Gate receipts for the world series telling \$1,033,104 established a new record, but the attendance was 282,605, or 17,735 less than last year.

SCRAPS ABOUT SCRAPPEES Don Long, Colorado Springs, and Jimmy "Kid" Hartman of Dodge City, (10)—Connie Curry of Sioux City, (10)—Frankie Welch of Columbus, (10)—Howard Marberry, Hamilton, outplayed Marberry, (10) for title at Toronto. Tommy Gibbons, St. Paul hit heavy weight, won a technical knockout over "Wild Bill" Reeb of Columbus, (2-10) at Bellare, O. Ted Moore, Plymouth, England, middleweight, won on a foul (6-10) with Jack Malone, St. Paul, at Cleveland. Carl Tremblay, Cleveland, won a referee's decision over Charley Goodman, New York bantam, (12) at Cleveland. Tommy Mitchell, Milwaukee won the referee's decision over Cuddy DeMarco, Pittsburgh, (12) at Waterbury, Conn.

Argentine navy rifle team retained international marksmanship trophy held since last competition in 1911, defeating U. S. Navy, 1901-1930.

Marquette and Wisconsin cross-country teams meeting Saturday.

Allen Guy, White on, wins \$11,000 2-year-old event at Lexington.

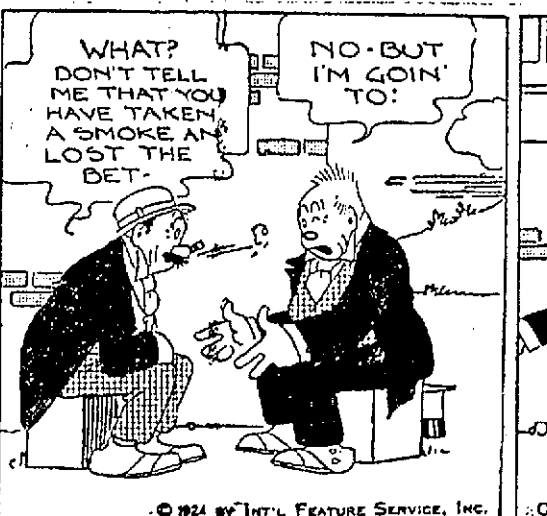

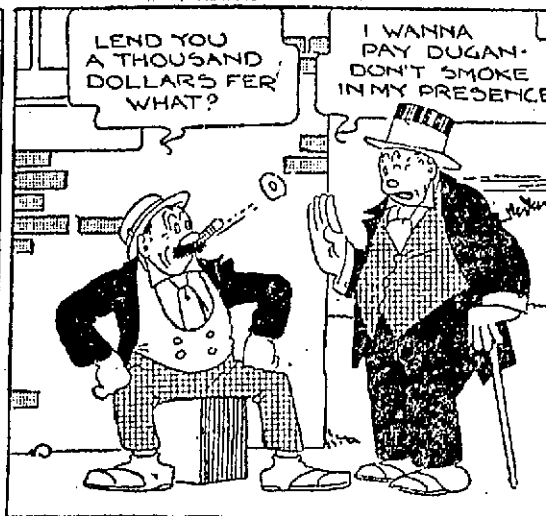

Monroe Awarded District Tourney

Monroe—The southwestern Wisconsin high school basketball tournament will be held next March at Monroe, it has been decided by the board of control of the Wisconsin Interscholastic Athletic association. The meet has been held at Brookfield for the past two years. When the divisional plan was changed from the district level to one of 16 three years ago, the first year's tourney was offered to Monroe. The local school was not in a position to handle it at that time. Previously it had been held at Plattville normal school. The event will be held in the armory, which has an excellent floor and good seating capacity. Monroe high is looking forward to an excellent basketball year. Only one regular has been lost. A new coach, Herman L. Jacobson, is at the helm.

White Sox Start on World Trip

Chicago—The European tour of the Chicago White Sox and the New York Giants officially got under way Saturday when several Chicago players headed by Norris L. O'Neill and President Charles Comiskey, Treasurer Louis Comiskey and Secretary Harry Grabner, embarked for Montreal. There they will meet some of the Chicago players and the Giants.

## ALL-STAR BOWLING TEAM

The week has been a good one for high counts in Janesville league bowling. The Gazette, Industrial-Commercial league team, shot a 988 count, which was exceeded only three times in league bowling last year. The high mark of 1923-24 was 1063 by the Merrick Dairy team in the city league. The stars:

**ALL STARS OF PAST WEEK**

**Beloit Gold 2 Stars Out Ties Catlin of Latonia**

Latonia, Ky., Epinard, turf champion of France, faces the supreme test of his American invasion Saturday in the third and final series of international races. The event, at a mile and a quarter with \$50,000 added, will be over the Latonia course, with 50,000 attendance.

August Belmont's Ladkin, which conquered Epinard in his second American race, is definitely out. Vice Counsellor, winner over Epinard, developed a recurrence of hoof trouble and will not start.

These disappointing withdrawals leaves the French champion to battle against Sarazen, the little gelding owned by Mrs. W. K. Vanderbilt, as the chief hope of the east; Zev, winner of the 1923 Kentucky derby and the two western sensations, Chisholm and Princess Dorcas, the only filly in the race.

**WHEELER'S GRID TEAM WINS OPENING GAME**

Janesville sports followers are watching with interest the success of Art Wheeler, director of playgrounds here last summer, as coach of Elgin academy and junior college. The team dedicated its \$20,000 stadium this week with a 56 to 0 victory over St. Albans' with the Elgin Varsity weights beating St. Albans' records, 6-0. The Elgin team trained at Phantom Lake camp, Wisconsin.

**\$13.00 MORE BUYS A CHEVROLET COACH**

In a non-conference game next Saturday, Ripon will play St. Norbert's at Ripon and this encounter perhaps will give the relative strength of Ripon and Lawrence colleges in the conference race, since Lawrence defeated St. Norbert's by an overwhelming score last week.

**Dalton's Buicks to Play Geneva**

Beloit—Moseley Dalton's Beloit Buicks open their home season, Sunday, with Lake Geneva, at the Geneva City. It should be one of the best attractions of the season due to the fact that Radabaugh, 1923 captain of Beloit college, is with the Lake at half and Ingalls, star center at Beloit the same year is at his old position. Dalton was more than satisfied with the showing against Dixon last week and is looking forward to a win. Many of the players that represented Beloit in the game in Janesville three years ago against Marquette are on the Beloit squad.

**Two Blue Teams Are in Action**

Janesville high school and Monroe were playing at the fair grounds Saturday afternoon before a large crowd. The game was expected to be a win for Janesville, but a hard fight was expected. Saturday morning, the Blue Seconds and Beloit Seconds met at the fairgrounds.

**McKaig Is Ill; Postpone Tennis**

Finals of the men's tournament scheduled for Saturday have been postponed until next week due to an infected hand of Sam McKaig, one of the finalists.

## "W" Cage Material Good; Bick May Have a Chance

Madison—Kenneth Bick, former star on the Janesville high school basketball team, is among those that have a chance to make the varsity basketball team at the University of Wisconsin this year. Experts who are watching the squad in its pre-season workouts state that Bick is showing promise of conference caliber and should make the team this year.

But the going will be stiff for every candidate. Spooner, varsity forward last year in back, Darwitz, Wackman, Capt. Dierck and Carney are all on hand with their several years of experience under Menzies. Diabold and Barick are possibilities as guards; Spooner and Varney at forward and Wackman at center. Then there are the following "W" men fighting for positions: Tanken, Merkle, Christensen and Gorn. In addition, from the frosh of last year come Otis, the red-headed flash of the former Wisconsin high team; Droop, Miller, Martel, Cant, Boks, Youner, Hargrett, Andrews, Bane, Meyers, Anderson and McCarthy.

Among the new fresh material is Ed. Hines, Milwaukee; Barry and Gentle, all-around men, of the University of Chicago's national tourney last year; Hotchicks and new Wisconsin all-state men, and Brown, Indiana all-state men. Wisconsin's prospects are as high as ever and the student body is looking forward to another sensational year. Menzies has been teaching the men how to shoot, pass, dribble and pivot. Scrimmage is not to start until after the football season.

**Scott Captures Stoughton Golf**

Stoughton—Henry W. Scott, president of the Stoughton Country club, won the club championship tournament by defeating Dr. Louis Viken in the finals Friday afternoon. Scott won four up and put forth a record in an extra hole match; Lewis G. French, who defeated Allen Earle, 4 and 2; Glen Church, who defeated J. S. Barker, 2 up; and T. S. Willis who won on a default from J. W. Carman. Second round starts Monday.

**Footville Plays Beloit, Sunday**

Footville—The Footville baseball team will meet the fast Beloit colored team again Sunday and hope to redeem itself and put forth a contest. Although they lost 8-7, in 12 innings last Sunday, to Magnolia, a passed ball by Owen, their catcher, Footville will be out for a win. Change in the lineup will be made. Stoughton of the Des Moines team is expected to be with the club, with Footville of Beloit and Stoughton as the battery. The Footville club is expecting a large attendance.

MONEY AND MARKETS

Wall Street, New York — Confidence toward better and more active business in all lines has been the general feeling since the election of November 3, 1934. The American Bankers' Association at the opening of the annual convention of that organization this week, while most of them have been careful not to forecast any actual "boom" in trade for the immediate future, they rely upon the strong banking and credit situation, the absence of monetary inflation, better adjustment among industries and entire lack of overproduction in an encouraging features of the autumn season now opening. Generally good crops are noted in nearly all sections of the country and buyers from the west and middle west call attention to the growing ability of the farmer "not only to liquidate his indebtedness, but to buy what might be termed luxuries in addition to his living expenses."

Very satisfactory prospects for trade are noted in the retail and wholesale lines are now expected practically throughout the country. All this confirms the general feeling for the securities market which has been recently recognized as prevailing. Some problems remain to be solved in connection with them that financial authorities are naturally inclined to study the immediate future of the securities market. Among them is noted by practically all the fact that wages in a good many lines are still on a basis which implies unduly high production costs. The actual working out of reparations plans is still to be accomplished and better export outlet thereby assured. The political prospect, while holding out every reason to expect that President Coolidge will succeed himself, nevertheless contains elements of uncertainty that tend to prevent immediate investment on a large scale. But the successful working out of these various problems in the situation is optimistically viewed in most quarters, with the result that general business conditions are taking on a better and more active nature than for a good while. The continued readjustments in wages and costs in the textile industry have already brought about a somewhat more normal state of things in that branch of production and milk have been buying raw material with fresh interest. Announcement of higher prices in woolens for spring goods, evidence in the strength of demand and runs directly counter to the assumption that the general trend of prices is downward. Advance in the cotton market, steady growth in good shipments of coal and heavy materials and substantial commitments for export. All these factors result in high hopes for continued and while it is true that a part of the motive is due to very early movement of farm products to market on account of the good prices that have prevailed, it is also noticeable that the farm output figures show a substantial basis for continued good freight movements during the fall and early winter. The fact that the transportation feature of the crisis it could be remembered that progress is being made in various parts of the country toward consolidation of rail lines and that the government authorities are on the whole showing a disposition to favor the plans for a reorganization of the carriers which are being worked out. The general railroad consolidation plan which had been developed by the Interstate Commerce Commission on a tentative basis has been modified by the Interstate Commerce Commission, that have been accepted and when it appears, as it is expected, to this winter, it will probably be in a greatly altered form. These conditions naturally make for large changes in value on the part of many railroad securities, and since the combinations in sight are in the interest of efficiency these changes should be generally upward—a condition which is being recognized by the public in the strong and sustained demand it is making for the stocks and bonds of the railroads. The placing of the St. Louis-San Francisco preference shares on a full dividend basis illustrates how some of the "low-priced" roads are "coming back" and the general feeling of better management and increasing business.

Election Prospects. It is natural that the uncertainty which always precedes a presidential election should, just at this time, cause a disposition in some quarters to hold back and await developments. Nevertheless, while it is admitted that the La Follette movement has shown strength in some parts of the country, there is a general belief that the "peak" of this strength has about been reached. The higher farm prices, general employment at good wages and prosperous outlook have reduced the number of "sore spots" and have greatly cut into the support of a party which relies largely on general discontent for its carrying power. Confidence that President Coolidge will go back into the White House is increasing all over the country owing to the belief that such strength as the La Follette movement is showing will be largely drawn from democratic voters. No doubt the desire to avoid developments will continue to hold back a good deal of buying activity until after the election, but as the outlook grows plainer this reluctance is likely to decrease and a stronger buying movement set in from genuine investment sources.

Market Review and Outlook. While for reasons already fully noted there is in some directions a tendency to hold back and avoid commitments there is abundant evidence of strong underlying support for value. No disposition to get rid of stocks has been observed, but, on the contrary, there is evidence of accumulation by strong people in some lines where it is believed that industrial readjustment has made some progress so that better earnings may be expected. There is special interest in a number of the rails with good prospects for earnings, and some of the utilities likewise in more general demand. Technically speaking, the market is in excellent condition, while the amount of funds advanced by the

Stock Market of Week Is Marked by Irregularity

New York—Irregular price movements continued to characterize this week's stock market, day to day fluctuations as a rule being narrow and irregular. Another "political scare" Friday afternoon brought about a rather sharp reaction in some of the popular issues, indicating the market's nervousness over election uncertainties. Trading was in reduced volume, because of the Jewish religious holidays, the approaching holiday on Monday and the inconclusive nature of the trend of business in many lines, all having a restraining effect on the market. Bullish trade news, however, was not lacking. It included publication of record breaking carloading statistics for the week ended September 27, an increase of 14,200 cars in the unfiled orders of the United States Steel Corporation, another advance in woolen prices and reports of further improvement in oil industry.

TODAY'S MARKET

FINANCE  
Wall Street Review. — New York—Stock prices continued to fluctuate today. While losses of a point or more were quite numerous, selling orders did not appear to be as urgent as those in yesterday's session. Merchandising, public utility, metal and sugar issues bore the brunt of the selling which originated largely with professional traders. Railroad shares were sluggish. Nickel Plate falling 2 1/2 points. General Electric was well supported, moving up more than 2 points and bringing about rallying tendencies in other quarters in the late dealing. The closing was heavy. Sales approximated 100,000 shares.

Liberty Bonds.

# PICTURES OF PEOPLE AND EVENTS TELL STORY OF WEEK

## ON THE BATTLEFRONT IN CHINA

These Chikiang troops are saying whatever the Chinese is for "War is Hell." They are resting up five miles back of the front lines after 10 days in the trenches, during which it rained incessantly. They are thoroughly demoralized, have very little equipment, and, observers say, wouldn't know what to do with it if they had. Organization is lacking, the leadership being for the most voluntary. Food intended for them is rotting out of their reach. There is little or no provision for care of the wounded, the casualties being left where they fall.

## Henry Wilder Keyes Fights to Keep New Hampshire Senatorial Seat

George E. Farrand (left), Democrat, is contesting for the senatorial seat of Henry Wilder Keyes (right), Republican, in New Hampshire. Farrand is state treasurer. Keyes is putting up a hot fight for re-election.

## Dawes Gives 'Em "Hell N' Maria"

Charles G. Dawes, the vice presidential nominee of the Republicans, seen in action in La Follette territory. From the rear platform of his train he is telling an audience in Red Wing, Minn., that "Common sense and brass tacks" is a better program for the farmer than promise of legislative relief.

## Ex-President Menocal Picked To Win in Cuban Elections

A former president, Mario Menocal (left), is expected to be the winner in the Cuban presidential election. His vice presidential running mate is Domingo Mendez Capote. They are the nominees of the Conservative party.

## Uncle Sam's Newest Big Guns Hurl Destruction Thirty-five Miles

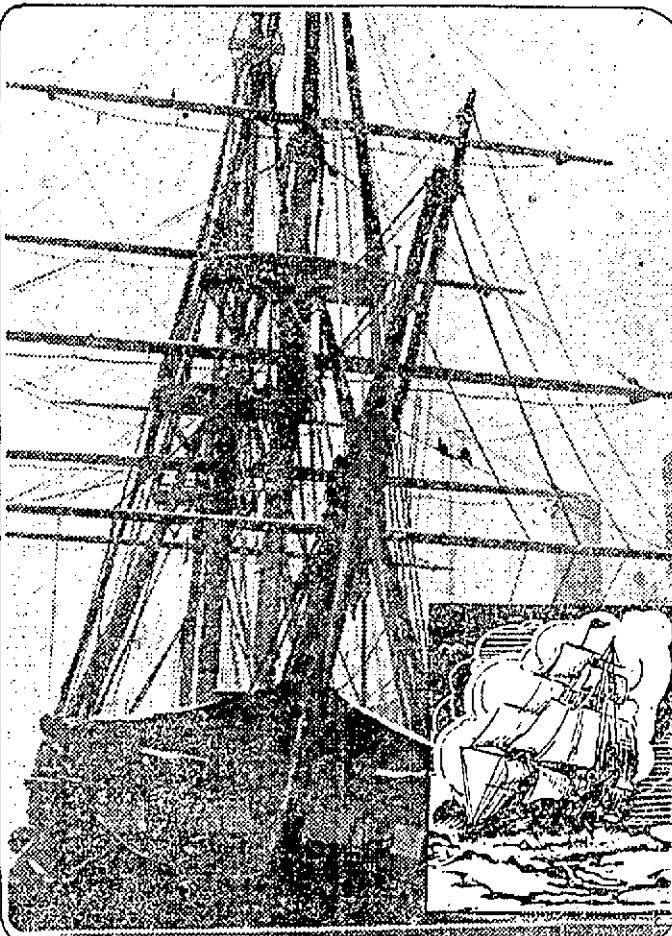

Noted engineers and scientists were spectators when Uncle Sam tried out his most modern weapons at the army ordnance proving grounds at Aberdeen, Md. The 16-inch gun shown here can hurl a projectile more than 35 miles. The spectator seems to be holding it on his shoulder—but, take our word for it, he isn't.

## Poland's Prettiest

Mary Marshalek was chosen as the most beautiful girl in Poland in a contest held in Warsaw.

## Neglect Threatens to Defeat "Old Ironsides" the Unbeaten

Age and neglect threaten to end the existence of the ship Constitution, famed as "Old Ironsides." The frigate, once the pride of the American navy, is rotting in the Boston navy yard. An effort will be made to obtain funds for its preservation in the next session of congress.

## OIL IS MENTIONED AS ITALY'S ENVOY GIVES UP U. S. POST

The announcement that Prince Gelasio Cactani (above) soon will retire as Italian ambassador to the U. S. is being connected to the U. S. by the mistake he made in backing Harry Sinclair to get control of a large part of Italy's oil fields. A flood of criticism was directed at the Sinclair options when the Teapot scandal broke.

## Mother and Daughter Led to Altar in Leap Year Double Wedding

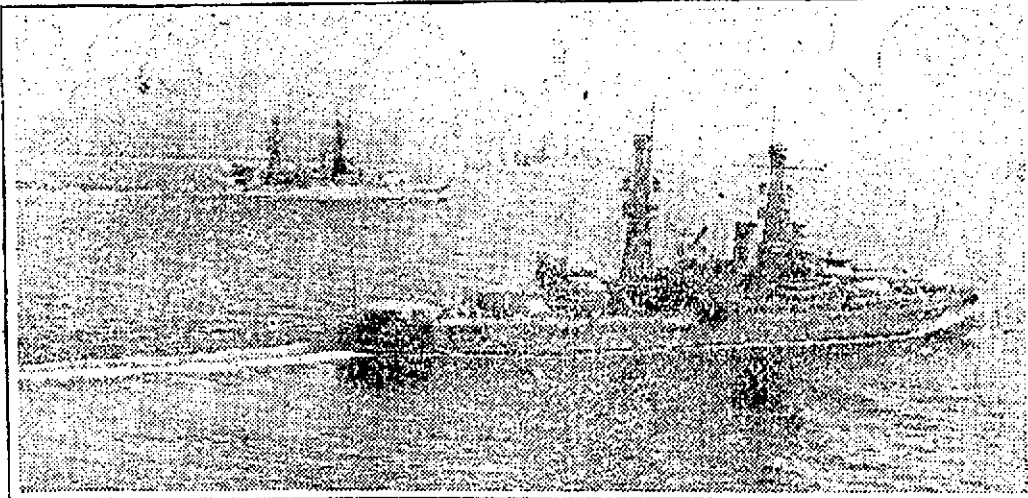

When Fred W. Zeimer and the Rev. Levin P. Causey took brides in a double wedding, at Lynn, Mass., the women they led to the altar were mother and daughter. The mother became Mrs. Causey and the daughter Mrs. Zeimer. Thirty years before the Rev. Mr. Causey married his present wife to her first husband. The Causeys are shown above, the Zeimers below.

## Edward Windsor, Canadian Rancher, Sees That Daily Chores Are Done

Edward Windsor, well known Canadian ranchman, going the rounds with his foreman, Prof. W. F. Carlyle, and Mrs. Carlyle, and seeing to it that the daily chores are done properly on his ranch in Alberta. Mr. Windsor is often referred to in the public prints as His Royal Highness, the Prince of Wales.

## Fall Maneuvers to Show Efficiency of U. S. Fleet

Present efficiency of the Pacific battle fleet, belittled by naval experts, will be determined in the fall maneuvers, now in progress off San Pedro, Cal. The fleet is seen steaming past the U. S. S. Pennsylvania (in the foreground).

## NAMED NEW CHIEF OF U. S. BUREAU OF MEXICAN AFFAIRS

Franklin Mott Gunther, until recently counselor of the American embassy in Rome, is the new chief of the division of Mexican affairs in the state department.

## PERFECT BABE'S PARENTS SPURN SCREEN OFFERS

All offers for the appearance of their child on stage or screen are being rejected by Mr. and Mrs. J. G. Heinzeroth of Cincinnati, O., parents of Betty Jane Heinzeroth, for whom they claim the title of the most perfect child in the U. S. She has won 18 baby show first prizes.

New Brunswick, N. J., police have succeeded in obtaining a photo of Harvey Sellaver, farm hand, who is accused of having murdered Elizabeth Johnson. The crime took place within a short distance of where the unsolved Hall-Mills murder was committed. Sellaver is believed to be following the harvest.

Moscow, heart and brains of the Russian giant, is faced by its gravest problem. Politically it is as strong as ever, but disaster threatens because of the ominous situation brought about by the serious disturbance of the balance between agriculture and industries. As a result the peasants cannot buy the city's goods; and the cities, unable to sell to the farmers, cannot buy from them. The problem must be solved by Kamenev (left), Zinoviev (right) or Stalin, who now are the big three in Russia, having divided Lenin's unlimited power. A view of Moscow is seen.

## What Do You Know About Four Wheel Brakes?

Brakes on all four wheels have been used on European cars for a number of years, but it is only within the last two or three years that they have been adopted to any extent on American automobiles. They are now fitted as standard equipment on a large number of cars and are offered as optional equipment on most cars that do not as yet fit them as standard.

A few weeks ago the writer carried out a series of tests to find out just what difference there was between a car braked on all four wheels and one that used rear brakes only. These tests were made to enable me to reply to numerous readers who have written asking for this information.

The first series of tests were carried out on a dry concrete highway and consisted of stops while traveling at various speeds. A marker was set up at the side of the road and an observer gave the writer the signal when exactly opposite this marker, then the brakes were applied. The tests were made first at 10 miles an hour then at 20, 30 and 40 miles an hour, using brakes on all four wheels. The front wheel brakes were then disconnected and stops were made at the same speeds using the brakes on the rear wheels only.

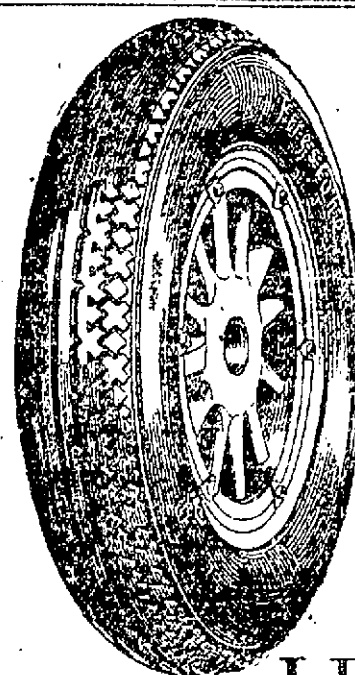

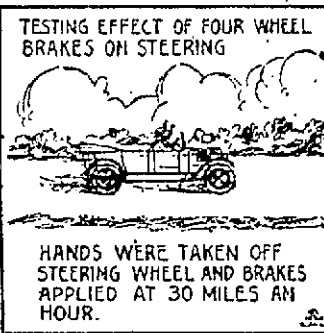

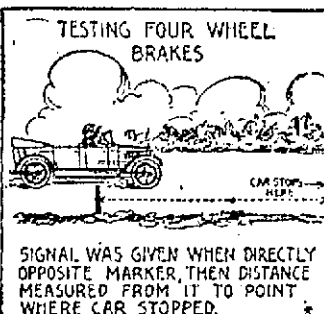

It was found that the average stop at 10 miles an hour with four wheel brakes was 5 ft. 6 ins., while rear wheel brakes required 9 ft. At 20 miles an hour the four wheel brakes pulled us up within 22 ft. while it required 36 ft. to do it with rear wheel brakes only. At 30 miles an hour, four wheel brakes brought the car to a standstill within 51 ft. while rear wheel brakes took 80 ft. At 40 miles an hour, four wheel brakes stopped the car within 85 ft. while rear wheel brakes took 140 ft. From these figures you can see that four wheel brakes will stop a car in just about two-thirds the distance it is possible to stop in when using rear wheel brakes only.

Under ordinary driving conditions rear wheel brakes are perfectly satisfactory, but when the necessity arises to make a sudden, quick stop or where the road is very greasy four wheel brakes give you just the margin of safety you need to prevent an accident. Say you are traveling at 20 miles an hour and a child suddenly starts to cross the road a few yards in front of you, with four wheel brakes you can bring your car to a standstill within a little more than two car lengths, whereas with brakes on the rear wheels only, it takes over three lengths to pull up in.

The second series of tests were made on a greasy stretch of road and these were very interesting. As you probably know if your car is equipped with brakes on the rear wheels only you require to apply them very gently to avoid skidding. I already knew from experience that it was practically impossible to make a car skid when it is handled properly and has four wheel brakes that were properly adjusted. This was the first time, however, that I had deliberately made tests at varying speeds. The tests were started at 10 miles an hour and went on up to 40 miles an hour. At all speeds up to 30 miles there was no sign of a skid. At 40 miles an hour a very slight skid started when the brakes were applied but this was very easily corrected.

To test the effect of front wheel brakes on the steering, a test was made at 30 miles an hour, the hands being taken off the steering wheel as soon as the brakes were applied. The only effect noticed was that we stopped about 4 ft. nearer the side of the road than we were when we started to apply the brakes. Another test was made by taking a corner while traveling at 25 miles an hour then applying the brakes just as the corner was being rounded. This had absolutely no effect on the steering. These two tests appear to prove that the action of the front wheel brakes have no noticeable effect on the steering.

One advantage of four wheel brakes that will be appreciated by the average owner is the fact that they require adjusting only at long intervals as the wear on the brake lining is divided between four brake bands instead of two.

## Firestone

### LEADERSHIP ON CABS, BUSES AND TRUCKS

The largest taxicab companies in the five largest cities in the United States use Firestone Gum Dipped Cords exclusively.

One fleet alone, the Yellow Cab Co., of Chicago, uses over one-half million tire miles per day.

Firestone for years has been first to develop tires and rims complete which would meet the heavy trucking loads, great strain and demand for traction.

Price Spotlights are controlled from the inside of the car and can be used when curtains are on. \$12.75 installed.

## Be Kind to Your Motor

this winter by using only Wadham's True Gasoline, and reap the reward in lowered repair costs.

Wadham's True Gasoline starts quickly and requires a minimum amount of choking. Too much choking of the motor when starting a cold motor rapidly dilutes the crankcase oil, resulting in a mixture which cuts the bearings instead of lubricating them.

At our new location we will soon be able to supply you with both high and low test Wadham's True Gasoline.

### In Addition to the General Cord Tire

WE ALSO CARRY A NUMBER OF BRANDS OF LOWER PRICED TIRES.

**McKOVE CORD  
CORDUROY CORD  
WRIGHT CORD  
LEE CORD**

ALL STYLES OF BALLOON TIRES.

These tires range in price to meet the pocketbook of every car owner.

### The Refined Oldsmobile Six

Oldsmobile Announces the FISHER BUILT COACH

A new Oldsmobile Coach—with body by Fisher. A creation that embodies everything for which the name Fisher stands: Velour upholstery—and roomy and comfortable for five passengers! Big 53-inch doors give wide entrance space. New patented one piece windshield provides ventilation and full driving vision. And underneath this splendid coach body with its Duo Satin finish is the famous tried and proved Oldsmobile Six chassis.

## Now, What Do You Know About That—

If we can't save you money on your repairs, we don't want your work.

That is a pretty big statement, but we stand ready to back it up. We are positive that we can turn out your car in record time. We are positive that our mechanics will give you the best that they have (Tom Femal is at the head of our service department, you know what that means).

We have a fine selection of used cars in the best of conditions should be properly adjusted now. A sick car in winter causes unnecessary delay. Let Doc Femal give it the once over. Remember, "A stitch in time saves nine."
